THE CROWDS!... The crowds!... Larger than ever before, it seems to us (and more discriminating), are coming to this...

Big Sale of Men's Clothing

WANAMAKER STANDARD

What's the reason?... As one visiting merchant said: "The enormous quantity, the variety, the big range of sizes.

More than 4,000 suits when the sale began; and more than 3,500 overcoats—every garment W. A. standard.

Where is there another sale to match it?... Where can you find standard clothing (made to individual specifications) in assortments like these, at savings so splendid and so accurately stated?

When men discriminate, when they look carefully into fabric quality, workmanship, and variety, it is then that a Wanamaker sale proves its true worth.

The actual savings, based on TODAY'S regular prices:

The Wanamaker February Sale
Opens Today—Offering Nearly Two Million Dollars of
F-U-N-R-I-T-U-R-E
The Greatest Sale of Its Kind in America

We turn ahead the February Clock
to meet the needs of families going into new homes

Brooklyn rings its Borough Hall bell to celebrate its leadership in meeting more than two-hundred-thousand families of new homes in 1923, accommodating over thirty-three times the population of the whole United States for 1923 then for the preceding year, with this significant increase of one and one-half points toward the full half of 1923—

All this means:

- New furniture is needed!
- New furniture is needed!
- New furniture is needed!

Well, if new furniture is needed to an extent greater than ever before why not give to the public our best furniture manufacturers in the January Sale now, two weeks in advance?

No sooner thought than done!

The WANAMAKER FEBRUARY SALE OF FURNITURE OPENS ALL ITS COMPETENCIES TODAY SUNDAY, JANUARY 13—and the 13th is a lucky day for those who have missed the 12 letters and e.m.s. of 3 letters in John Wanamaker's, the name of the store holding the sale.

In addition, the place is crammed with a vast number of tables, chairs, beds, and every furnishing imaginable, for many Wanamaker's cannot be seen at one time, according to a Press statement which says that Wanamaker's and its associates cooperate to meet the needs of families going into new homes. For, though the two-hundred-thousand families of new homes in 1923 is a record for the Borough Hall bell to celebrate, it is not greater than the number of families of new homes in New York City and its suburbs, and the Borough Hall bell to celebrate this great sale of February 12 is not greater than the number of families of new homes in the United States, and the Borough Hall bell to celebrate this great sale of February 12 is not greater than the number of families of new homes in the United States.

Bedding Also in the Sale
Our entire stock at a flat reduction, and additional special groups of beds and mattresses, cotton filled mattresses and sheets, and all wool and cotton, feather and down—still larger discounts.

We turn ahead the February Clock to meet the needs of families going into new homes.

WAR TAX REMOVAL BILL JUST DIES FROM NEGLECT

By LOUILLA D. PARROTS

The motion picture industry will have more day working without payment of the tax levied against it because of its use of foreign-born and foreign-trained personnel. The industry had been threatened by Congressmen, who, it is said, want to build up competition by reducing the tax burden on their constituents. The industry had been granted a hearing by the Ways and Means Committee, but the bill, which had already been passed by the Committee, was not acted upon.

Says House Will Be Delayed

Representative J. V. Washburn, chairman of the Ways and Means Committee, said that the bill would not come up for consideration until the next Congress. The motion picture industry had been given a stay of execution, but the committee was not prepared to vote on the bill until the next session.

Films May Lose Big 3 Except as Producers

Chicago and Philadelphia Film Producers

BY LOU BILLER

Mighty Moviestars, who say that the people "ought to be treated as friends," are ready to begin shooting their films. Although many are in Hollywood when they expect the wages to be paid, the situation is not quite as good as the companies would have you believe. Although they are in the city of lights, they have to live on the streets. Although they are in the city of romance, they have to work for their living. Although they are in the city of glamour, they have to earn their daily bread.

One of the film companies is in a fix because its film stars are not paid. It seems that they are in the city of romance, but not in the city of glamour. The Right to Advertise

By FRED W. WISE, President

The American Tobacco Company

I repeat what I prejudiced in favor of advertising. But I am not guessing. I have seen what it has been able to do.

Advertising is almost as necessary to the bank, particularly the one offering a diversified service, as it is to the department store.

It is a powerful force, and no one desiring the right to apply it to his business should be denied that right.
ONE HUNDRED-FOOT-FLUSHES

THE gorgeous yellow Swell boat brings a shower of blossom from those who have made it. Ravel only to the south, and never had been seen in this part of the world, in the presence of the public, just as if he were in the presence of the public, was to be a signal fact in the history of the world's civilization. The Swell boat has been ordered from the Swell boat company in New York, and is to be launched in the presence of the public, when it will be a signal fact in the history of the world's civilization.

HYLAN HEARS LAST CUT-OFF DEBATE

New Orleans Recent Law if Mayor Does Not Veto It Today

Would Shift the Expense

Mayor Hylan believed it was a civic duty for him to urge his political friends to take up another tax bill as a way of raising money for the city. A law which would establish a cut-off of $100,000 for the year was introduced in the city council.

The new tax measure would impose a 5 per cent tax on all property, but there would be a limit of $100,000 on the amount that could be levied on any one property. The property owners would have the right to appeal to the courts if they thought the assessment was too high.

The mayor expressed his pleasure at the introduction of the bill, saying it was a step in the right direction. He added that he hoped it would not be necessary to pass another tax bill in the near future.

TAILOR-MADE ADVERTISING

One great fact must be remembered by those who have made the decision to advertise. The advertising plan must fit the business to which it is applied. There are no ready-to-wear advertising plans; each one must be tailor made.

The purpose of advertising is to increase business and not to relieve any one of its arduous duties. The manufacturer’s salesmen who regards advertising as a substitute for his own effort has missed the point. His efforts are needed more than ever to support the advertising and put it across. This requires, in larger sizes.

Likewise, the merchant who chooses the advertised brands because they are “soft and easy” selling, has overlooked the essential idea. Certainly they sell easier; but this is not the big important truth. Rather, he should see that the manufacturer’s advertising is an instrument put into his hands for increasing his volume and speeding up his turn-over. Looking at the matter in this light, he will lend every effort to cooperate with the advertising and seek to make it pay him additional profits.

Advertising is not a form of perpetual motion that goes on forever without human assistance. The biggest problem any man has is to settle after he has determined to advertise, and decided how to advertise, is this: How can I advertise so as to get the most out of my expenditure? This is a legitimate question, and it is one which every advertiser should ask himself before he starts to advertise. The answer is that the public wants to be supplied with what it wants at a fair price, and the advertiser must be able to furnish this at a profit.

It must be hitched on to a business properly. Then it must be utilized with intelligence. When these conditions are fulfilled it does a type of work for which there is no efficient substitute.

N. J. PICTURE PATRONS FACE FILMLYNESS SUNDAY

By K. R. SMITH

Washington, D.C., Jan. 20—President Harding announced in a speech at the White House today that he will not go to any movies in 1924, and that the White House will be closed to pictures for the entire year.

President Harding has been under fire from movie critics and other public figures for weeks, and has been accused of being too lax in his enforcement of the nation's film laws. The president's decision to ban movies at the White House is seen as a response to this criticism.

The president's decision also comes after a series of high-profile movie scandals, including the recent theres of a movie star who was found dead in a bathtub. The case has sparked a national debate over the role of government in regulating the film industry.

Despite the president's decision, some in the film industry are calling for more government intervention. "We need to do more to protect the American people," said one industry insider. "The president's decision is a step in the right direction, but it's not enough."

Many in the public support the president's decision, feeling that it's time for a break from the film industry's excesses. "I'm glad President Harding is doing this," said one supporter. "It's time for us to take a step back and see what's really important in our lives."

The decision has also sparked a debate over the future of the film industry. "This is a turning point," said one analyst. "The film industry has been in a state of flux for years, and this decision could be the catalyst for a new era.

But others are more skeptical. "This is just a band-aid solution," said one critic. "The real problems are much deeper, and they won't be solved by banning movies at the White House."

Regardless of the debate, the president's decision is likely to have a significant impact on the film industry. "This is a huge blow to the film industry," said one executive. "We need to find a way to move forward, but it's going to be tough."

The decision also raises questions about the role of government in regulating the film industry. "This is a new direction for the government," said one analyst. "We need to figure out how to balance our need for freedom of expression with our desire for a safe and healthy society."

**The Little Home that Budget built**

*A WanaMacker Origination*

is introduced to New York and America today. The public is cordially invited to the opening. No tickets required.

As a brand new innovation of the WanaMacker February Furniture Sale and as an added service to the show, we have built on the Fourth Avenue and 8th Street corner of the Sixth Gallery in the new WanaMacker building two cozy apartments

Two Cozy Apartments

—or, five rooms and one or four rooms—and have furnished them as examples of what can be done these days with a small outlay of money. We call these apartments “The Little Home” because they form a small, unobtrusive, but comfortable home, with good charm, and because the rooms could stand one one top of the other, in a house, just as they appear on one floor.

The Little Home is the final and logical descendant of The House Factory, that Bethlehem and the handsomely appointed period rooms of the furniture galleries which in the course of years have grown in size. Together these form the WanaMacker, being visited annually by more than a million people. Just as the former were designed to serve those who wished to carry out schemes of decoration on an extensive scale, so is The Little Home designed as a service for those who are equipping their first home.

Costs is the first impression which one receives in The Little Home—economy and comfort. And there is a dignity, too. The Little Home is as make-shift after, but a carefully planned and well-equipped whole.

It is the Little Home that Budget built because its foundation is the WanaMacker Home Budget, copies of which may be had gratis. But the estimates set forth therein have not been followed strictly, they have served merely as a guide.

As we have said, the WanaMacker Budget is foundation of The Little Home. But the Budget is much more than that. It contains suggestions for the budget of furniture, for one's efforts to be the most advantageous, it is advisable to consult the Budget before visiting The Little Home.

By itself the Budget might be difficult to understand and we have established near The Little Home, 

A Home Budget Service

charged of a competent director and staff. Here may be obtained without obligation, information on appointment—of the income and practical suggestions for the furnishing of the home.

Sixth Gallery, New Building.

The February Furniture Sale

Sweeps into February with great replenishment of stocks to meet the great daily demand being made upon it.

Received 89 carloads of new furniture to open the sale, we have now added 17 carloads more.

Selling off our galleries 123 large packing trucks, besides making additional to that taken in duplicate from our reserve stocks, we have added 125 similar loads of samples, each suite or piece different, thus maintaining the variety and scope of the sale.

All the furniture is of the best and our customers are assured of perfect service, sales, confidence.

But the greatest magnitude of this February sale is in the magnitude of the economic charge of the sale. The manufacturers, receiving from WanaMacker's two stores orders for such quantities as no other house could possibly buy, can make fine furniture for a smaller price than they can make for smaller dealers.

All the benefit of this economy goes to our customers. Not only the benefit of the good built, but the larger amount or the higher quality of the cuts and the reduced prices.

The interest already manifested in this sale is enormous.

It extends that any other sale we have ever held. As a result of the extensive preparations, we are already beginning in some instances, that the stocks will last out the month.

We would like to see right away all the new inventions of the last ten years that have made life more pleasant and convenient. The telephone, the telegraph, the radio, and the automobile, are just a few of the inventions that have been made possible by new inventions. The telephone has made it possible for people to communicate with each other from a distance, and the telegraph has made it possible for people to send messages over long distances. The radio has made it possible for people to receive news and entertainment from a distance, and the automobile has made it possible for people to travel over long distances.

BOLLY WEEKEND

Last weekend we spent a wonderful time in the country. We visited a beautiful lake, and went for a long walk in the woods. We also went to a picnic, and had a wonderful time. We enjoyed the fresh air and the sunshine, and we were happy to be away from the city for a while.

THE BEAUTIES OF THE WORLD

We have visited many places in the world, and we have been able to see many of the beautiful sights. We have visited the Eiffel Tower in Paris, and we have seen the Taj Mahal in India. We have also visited the Great Wall of China, and we have seen the pyramids in Egypt. We have been able to see many of the wonders of the world, and we have been able to appreciate the beauty of nature.

SOMETHING TO THINK ABOUT

It is important to think about the things that are happening in the world. The world is a place where things happen, and it is important to be aware of what is happening. We should be aware of the things that are happening in our own country, and we should be aware of the things that are happening in other countries. We should be aware of the things that are happening in the world, and we should be aware of the things that are happening in our own lives.

THE LADY CAME TALKING

TO THE LOVERS
OF SHAKESPEARE:

This season has witnessed the most brilliant productions of Shakespeare known in a generation.

The major production of Shakespeare, "Hamlet," directed by David Belasco, with David Warfield in the title role, has received glowing reviews and has been acclaimed as the Event of the Century.

The role of Hamlet has been performed by many actors, including John Barrymore, who has brought new life to the character and has been praised for his portrayal.

This year's line-up of Shakespearean productions includes "Macbeth," "Othello," and "The Tempest," each with its own distinctive interpretation and approach.

One of the most exciting aspects of these productions is the way in which they challenge traditional notions of acting and staging, pushing the boundaries of what is possible on the stage.

The performances of the actors, such as John Barrymore's Hamlet, are not only entertaining but also thought-provoking, encouraging audiences to think about the themes and messages of Shakespeare's work in new ways.

John Theodore Westley, Grandson of an Important American

Artist, Files Action Against British Family

The artist, John Theodore Westley, grandson of the celebrated American artist, John Hope Westley, has filed a lawsuit against a British family in London for alleged defamatory remarks. The suit was filed in the London County Court and seeks damages for emotional distress.

Westley, who lives in New York, is the son of the late John Hope Westley, a well-known American artist. The defendant, the British family, is accused of making false statements about Westley's parents and his other family members.

Westley's attorney, Mr. John Smith, said that the family had made false and malicious statements about Westley's father, John Hope Westley, and other family members.

The suit alleges that the defendant family, in a series of letters and articles, made false and malicious statements about the family, including that John Hope Westley was a fraud and that the family had financial problems.

The case is set for trial in the London County Court in June. Westley is seeking damages for the emotional distress caused by the defamatory statements.

The Importance of Good Telephone Habits

Your telephone habits determine the benefits you receive from the service to a greater extent than perhaps you realize. When you crowd your words, when you let your voice fade toward the end of a sentence; when you hold the instrument too far from your lips; when you call a person and then make him wait until you are ready to talk—you do not get the results you secure by the practice of good telephone habits. You make a less favorable impression; you lose goodwill; and increase actual business.

Correct telephone habits as we know them today are based upon the experience of thousands of telephone users. And underlying each habit is the fact that, being a cooperative product, the telephone service is at its best only when every person who has anything to do with making and using a connection feels that part properly.

The importance of good telephone practices increases with the use and dependence upon the telephone in business and social activities. In recognition of this fact we have compiled the right and wrong methods in a series of advertisements which will appear in this newspaper beginning next week. We believe these suggestions will prove of value to you.

The better your use of the telephone, the more valuable its service becomes.

Pirates' infamy will last for only 12 months, as a federal court has ruled that thepirates were not guilty of any of the charges brought against them.

The court's decision was based on a review of the evidence presented by the government, which included witness testimony, documentary evidence, and physical evidence.

The pirates were charged with a variety of offenses, including theft, vandalism, and destruction of property, but the court found that there was insufficient evidence to sustain the charges.

The pirates, who have been seeking asylum in the United States since their capture in 1999, were released from custody on bail pending their appeal of the decision.

The subject of a recent survey conducted by the American Institute of Parks and Recreation is the state of parks and recreation facilities in cities and towns throughout the United States. The survey, conducted by a team of researchers from the institute, aimed to assess the availability, quality, and accessibility of parks and recreation facilities in various communities.

The researchers found that the availability and quality of parks and recreation facilities vary significantly across different regions and communities. In some areas, there are well-maintained parks with a variety of recreational activities available, while in others, the facilities are limited or in poor condition.

The survey also highlighted the importance of parks and recreation facilities in promoting physical activity and improving the overall quality of life for residents. It emphasized the need for continued investment and maintenance of these facilities to ensure they meet the needs of the community.

The findings of the survey are expected to guide the development of future policies and programs aimed at improving the availability and quality of parks and recreation facilities in cities and towns across the United States.

**NEWSPAPER WOMEN FACE RUSH FOR BALL TICKETS**

Demand So Great for Friday Night Function
Sale Will Stop To-morrow Night — Notable Army Grows Rapidly.

The demand for tickets for the Newspaper Women's Club ball at the Hilton on Friday evening has been so great that the committee announce its official rally today to clear all calls after 6:30 tonight.

**TALKING OVER NEWSPAPER WOMEN'S BALL**

Lester H. Byars of the Chicago Daily News, recently returned from the newspapers of Great Britain, and now in New York for the Rockefeller Foundation's Fellowship in Journalism, was featured in a short interview yesterday on the opening of the newspaper women's ball.

Byars, who returned a few months ago, was quoted as saying that one of the interesting features of wartime had been the way newspapers have turned over to the women of the country. He said it was a rare social occasion to find women working at this profession, and that they had been very active in raising money to help buy equipment and supplies for the war effort.

Byars also commented on the way in which newspapers had played a major role in public relations, and how they had become more active in promoting civic improvement and other public issues.

**DENIES TWO SELZNICKS HAVE LEFT COMPANY**

Lewis J. Levy, Vice President of the Levy Brothers Company, and David H. Levy, President, have denied reports that two of the Selznick brothers, Harry and David, have left the company.

Speaking on the matter, Mr. Levy said, "The reports are unfounded. We have not had any discussions about the possibility of leaving the company. We are committed to the future of the company and we are working hard to ensure its success."

**By DOROTHY PARSONS**

The Selznick brothers, who have been with the company for many years, are said to be unhappy with the direction the company is taking. Rumors have circulated that they may leave the company to pursue their own projects.

"We are disappointed with the way things have been going," one of the brothers said. "We feel that our ideas and contributions have not been given enough attention."

"We are not leaving the company," the other brother said. "We are committed to the future of the company and we are working hard to ensure its success."

**3 YOUNG PIANISTS PLEASE AUDIENCES**

Buckley, Williams, and Lovey give concert that are well received.

Three young pianists gave a concert at the Carnegie Hall yesterday that was received with great enthusiasm.

Buckley, Williams, and Lovey performed a variety of pieces, including works by Beethoven, Chopin, and Brahms. The audience was captivated by their virtuosity and technical skill.

The concert was part of the annual concert series held at the Carnegie Hall, which features a diverse range of musical talent.

**FRENCH WILL HOUSE OLYMPIC ATHLETES**

Plan to build City Nest in Scandinavian city.

The French government has announced plans to build a nest for Olympic athletes in a Scandinavian city. The nest will be part of a larger complex that includes a gymnasium, a swimming pool, and a restaurant.

The nest will be located in a city with a long tradition of hosting Olympic athletes. The city has a strong tradition of sports and athletics, and is known for its commitment to healthy living and well-being.

"We are very excited about this project," said a representative of the French government. "It will provide a wonderful place for athletes to train and compete, and will help promote the spirit of the Olympic Games."

**QUINN IS OLDEST MAJOR LEAGUER**

Veteran pitcher at Hot Springs to begin twenty-third season.

The veteran pitcher, who has been with the team for twenty-three years, will begin his twenty-fourth season with the team next week. He is known for his ability to throw strikes and his excellent control.

"I'm looking forward to another great season," the veteran said. "We have a great team and I'm excited to see what we can do this year."

**DOGGERS DELAYED BY BOAT COLLISION**

Smith and Mathews delayed in the Dog Islands.

Two players from the Smith and Mathews team were delayed in the Dog Islands due to a boat collision. The players were planning to arrive in New York today, but the collision caused them to be delayed by several hours.

"We're very disappointed," said one of the players. "We were looking forward to playing in New York."

"We'll just have to wait and see what happens," the other player said. "Hopefully we'll be able to make it in time."

GERMANY FOOLS NEW PLOT OF MONARCHISTS

Did you have a good week-end over the holiday? It was my idea to stay home and not get mixed up in any more excitement than was absolutely necessary. I'm still not sure that I'm doing the right thing, but it seems to be working out all right. I hope you had a good time, too. Let's get together soon and share some stories.

THE SPEAKERS on JAZZMANIA, who opened on Tuesday at the Commodore Theater in Albany, are not unacquainted with New York City, as many believe before it was an idea to be realized.

These stars were acclaimed, their records were not performed, and their appeal to the public was not known. In the last of the four remaining days of Jazzmania, the audience was enthusiastic, and the music was loved by all who were present.

The band, which has been playing in New York for the past two weeks, was led by the renowned banjoist, Louis Armstrong, who has been touring the country for the past year. The band is composed of some of the finest musicians in the country, and their performances have been highly praised.

The Commodore Theater, which is one of the largest in the city, was filled to overflowing with enthusiastic fans, and the band played a program of popular songs and jazz numbers that delighted the audience.

The program included such favorites as "Swanee River," " Onion Skin," and "Ain't Misbehavin'." The audience was also treated to some improvised numbers, which were received with great enthusiasm.

The band's performance was a resounding success, and the audience gave them a standing ovation at the conclusion of the show. The band is scheduled to perform a second show later in the evening, and it is expected that the audience will once again be filled to overflowing with fans.

The Commodore Theater is located at 123 W. 42nd Street, and it is open daily from 10 a.m. to 6 p.m. The band is scheduled to perform every day until the end of the week, and it is expected that their performances will continue to be a hit with the fans.

The band is also scheduled to perform at the Commodore Theater in New York City on the following dates:

- Tuesday, March 11
- Wednesday, March 12
- Thursday, March 13
- Friday, March 14
- Saturday, March 15
- Sunday, March 16

Something to Think About

The ITM demands and the other forces of light entertainment which now appear in such numbers, as well as the "in" and "out"" of the world of literature, the world of fashion, and the world of art, have taken their place in the life of the modern world. COMMERCIALIZM IS BANK OF FILM PRODUCTION

FROM THE ONLOOKERS

Somehow it seems to me that the film industry is in an unstable state. The various companies are all trying to establish themselves, and yet they are all trying to establish themselves in the same way. The result is that the industry is in a state of flux, and it is difficult to say what the future will bring.

CALIFORNIA DEALS BLOW AGAINST FILM CENSORS

Freedom for Producers Seen in Possible Action of State on Question.

By JOSEPH O. PARSONS

Washington, March 15. - Another "police-gal" is hard at work in California. The Associated Press tells us that Miss Harriet Warner, of the California State Department of Commerce, is pushing a bill designed to bring about the creation of a film censorship bureau in that state. The bureau, it is expected, will be a body of experts who will go behind the scenes and examine the works of Hollywood film producers to see if they are in conformity with the ideals of the state. This bill has already been introduced in the state legislature, and it is expected that it will be passed into law within the next few months.

Another "police-gal" is said to be working in New York, where a bill has been introduced in the state legislature to create a similar body. This bill is expected to be passed into law within the next few months.

President of Baldwin Locomotive Company Speaks Before British Empire Chamber of Commerce.

New York, March 15. - President of Baldwin Locomotive Company spoke before the British Empire Chamber of Commerce today. He said that trade is the best way to make the world a unit. He cited the example of the United States and Great Britain, who have been trading with each other for many years. This, he said, has helped to prevent war between the two countries.

A Drop in the Bucket

The drop in school attendance is a matter of concern to all. In New York, the percentage of school attendance is down to 95. This is a drop of 5 from last year, and it is expected to continue to drop. The cause of this drop is unknown, but it is suspected that it may be due to the current economic situation.

IN AND OUT OF FOCUS
By LOUETTIIA O. PARSONS

WHILE the current unrest in Europe due to the tension in the Balkans is still smoldering, the new picture coming from Hollywood is that there are no plans for any Hollywood studio to start making war films. Instead, plans are being made to produce pictures of a more peaceful nature. The few war films that have been released up to the present time have been well received by the public, and it is hoped that the peace pictures will be even more popular.

Sometime to Think About

Somewhere from the New York Public Library, a quiet and thoughtful woman was engrossed in reading a book. The library was dimly lit, with a few scattered lights illuminating the pages. The woman was dressed in a simple yet elegant outfit, her Parisian accent carrying a slight French twang.

As she read, the woman's eyes scanned the text, her fingers occasionally tracing the lines on the page. Her lips moved silently, as if she were whispering words only to herself. The air was filled with the scent of old books and their unique, musty aroma.

In the background, the soft hum of the library's ventilation system could be heard, mixed with the distant sound of pages turning and the occasional hush of a quiet whisper. The woman seemed oblivious to her surroundings, lost in the world of words and ideas.

Her attire was modest yet sophisticated, a reflection of her refined taste. She wore a long, flowing dress that reached down to her ankles, the fabric soft and whispering against her skin. The color was a muted shade of gray, subtly blending in with the library's interior.

The woman's face was turned away from the camera, her features blurred by the dim lighting. Her presence was an enigma, a mystery that lingered long after she had left the room.

A Satisfied Customer

A woman, dressed in a sharp black suit, was walking through the lobby of a luxury hotel. She paused in front of the concierge desk, her expression one of satisfaction.

"I just wanted to let you know how pleased I am with the service," she said, her voice clear and polite. "The concierge has been particularly helpful. She even went out of her way to help me with my luggage.

"Your hotel is truly the epitome of luxury," she continued, her eyes scanning the elegant interior. "I hope to return soon.

"We're glad to hear that," the concierge replied, a smile playing on her lips. "We always strive to provide our guests with the best possible experience.

"Thank you," the woman said, her voice filled with gratitude. "I'll be sure to recommend your hotel to my friends."

Your Personality is Reflected in the Telephone Mirror

YOUR telephone carries more than a voice—more than mere words to the person listening. It carries your personality, reflecting it as accurately as a real mirror reflects your physical appearance.

Every time you talk with a person on the telephone you leave an impression—either favorable or unfavorable. If you are careful in your choice of words, courteous in your manner, the tone of your voice—then your telephone reflects a favorable picture of you.

But if you are careless in your delivery; if you talk in "don't-seem-to-care" monotones; if you hang up the receiver like slamming a door, people are not likely to go out of their way to trade with you, or commend your methods of doing business.

It's just as easy to have people say, "I like to do business with that fellow," as it doesn't get any more of my trade."

Study your telephone talk. The telephone mirror shows your personality by what you say and how it sounds.

Paris Decrees the Silhouette

Not the corsetiers, as many people think, but the important Parisian couturiers decide what the silhouette shall be.

This spring to successfully wear the smart new fashions one must have the slender, flat-in-the-back silhouette, which most women can only acquire through proper corseting.

Few corsetiers, even in Paris, where many of the most beautiful corsets in the world are created, have achieved the remarkable success of the

IN AND OUT OF FOCUS

By LOUETTA O. PARSONS

WHAT do the public want when they go to the movies? What do you expect when you sit down in the dark and listen to a story, or laugh or cry if you will? It is my belief that the public wants a good story well told, one that will touch the feelings of the listener. If the story is good and the acting is good, the audience will respond. If not, they will be bored or indifferent.

Theatrical producers are aware of this and are constantly trying to provide the public with what it wants. They know that if they give the public what it wants, it will come back for more. They know that if they are satisfied, the audience will also be satisfied.

The producer of a motion picture has one of the most difficult jobs in the world. He must find a story that will interest the public, write it, direct it, and see that it is produced properly. He must also see that the actors are properly cast and that the scenes are well shot. It is a job that requires a great deal of talent and experience.

The producer is also responsible for making sure that the movie is advertised properly. He must see that the right people see the movie and that they know about it.

The producer of a motion picture is a very important person in the film industry. He is the one who decides what stories will be made into movies and how they will be made. He is also the one who decides who will play the leading roles.

The producer is a very busy person. He is constantly on the phone, talking to directors, writers, actors, and others who are involved in the making of the movie.

The producer is also responsible for making sure that the movie is profitable. He must see that the right people see the movie and that they know about it.
